Level 1A, 1B and 2A

	Res.	Spectral Mode	Vintage	Full Scene	½ Scene	¼ Scene	· Scene
SPOT 5	2.5m	Panchromatic	2002+	\$6,750	\$5,050	\$3,375	\$2,550
	5m	Panchromatic	2002+	\$3,375	\$2,525	\$1,675	\$1,275
	10m	Multispectral	2002+	\$3,375	\$2,525	\$1,675	\$1,275
SPOT 1-4	10m	Panchromatic	1986-2001	\$1,200			
		Panchromatic	2002+	\$1,900			
	20m	Multispectral	1986-2001	\$1,200			
		Multispectral	2002+	\$1,900			

Note

Programming fees are extra
 Partial scene only available for SPOT 5
 Level2A products are projected in UTM-WGS84 (without use of GCPs, no terrain correction applied)
 Level2A products produced in projection/datum other than UTM-WGS84 will be charged at 2B Price, and product will be delivered as a SPOTVIEW

Programming Services – New Imagery

Services	Description	\$ / Scene
Programming*	Standard Blue Programming	\$1,000
	Red Programming: Guarantees highest priority image acquisition	\$4,875
Rapid Scheduling**	Programming feasibility study provided within 24 hours for satellite tasking within 48 hours	\$1,200

* Included in the Blue Programming is a \$350/scene non-refundable activation fee due at the time of order. Included in the Red Programming is a \$1500/scene non-refundable activation fee due at the time of order.
 ** Fee is due at time of order and is not refundable

Programming Prices are in addition to the base price of imagery

Delivery Services

Delivery Time	Programmed Scene		Archive Scene*
	North America	Outside North America	
6 hours ▶	\$1,200		\$1,200
18 hours ▶	\$750		\$750
24 hours ▶	\$600		\$600
48 hours ▶	\$500		Standard
96 hours ▶	Standard – No charge		

* From Toulouse main centralized archive only

SPOTVIEW Product

Delivery time: 72h to be added to the delivery time of the corresponding level 1 imagery
 Delivery time is dependent on receipt of required control points for processing

Delivery times are given from time of acquisition for programmed scenes, and from time of confirmation of order for archive scene orders

Delivery times refer to when product is ready for delivery, either on media or on SPOT Image Corporation FTP site

Schedule is based on order placed by 12:00 noon Eastern Time (business days).

Standard shipping is 2-day delivery, unless other arrangements are made. Orders involving more than 10 scenes may require longer delivery time. All times are based on predictable and historical performance, but do not imply a guarantee

Square Kilometer Pricing – North American Data - Recent and New Collect Scenes

# of km ²	SPOT 5				SPOT 2 - 4	
	2.5m		5m		10m	10m/20m

Square km Offer Details

Offer valid only for SPOT 1-5, level 1a or 2a products
 15% up-front fee will apply for recent and new collects
 Standard Blue Programming will apply to all orders
 Minimum AOI 750 km²
 AOI shall be at least 25km wide
 Price can not be applied for narrow corridor coverage, linear feature coverage with swath smaller than 40 km
 Exact # of km² will be calculated by Iunctus Geomatics
 Iunctus Geomatics reserves the right to reject any AOI that does not meet the above criteria.
 North American Data refers to SPOT scenes collected within the circle of visibility of CCRS Ground Station

Deliverables

All SPOT scenes required to provide a complete coverage will be delivered, areas outside the AOI will be resampled to a lower resolution
 Deliverables will be either Full Scenes or Sub-scenes products
 The color option is a bundle delivery of both Panchromatic and Multi-spectral SPOT Scenes for the same area
